APPLICATION**

Property Owner: _____

Address: _____

Phone: _____

Email: _____

Date: _____

Description of Upgrade (Please Attach Plans):

For Office Use Only:

_____	_____
Building Coordinator	Village Board

VILLAGE OF BEDFORD PARK
FLOOD REDUCTION/DRAINAGE INCENTIVE PROGRAM

Eligible Projects:

The following improvements would be eligible for the incentive:

1. Overhead sewer installation
2. Check-off valve installation
3. Sump pump installation
4. Basement floor/drainage tile upgrades
5. Rain gutter upgrades
6. Generator installation
7. Sewer Repair

How it works:

Only residents can apply and qualify for one incentive. The incentive would be at 50% of the cost or a max of \$3,000, whichever figure is lower. All of the projects are water related. The owner would have to pay at least 50% of any project, pick their own contractor, and be responsible for the work. A resident would only be eligible for one project. The program will be limited to 50 homes each year chosen by lottery in a one-year time period unless funds are available in the budgeted amount for the incentive in a particular year. If there are less than 50 applicants in a year, no lottery will be held. We plan to keep the program in place for 4 years to allow each home to be eligible for the incentive. Our Building Department will approve all designs and work before the work is started and completed. Incentive payment will be made to the resident upon Village approval of completion of the approved work and verification of billing.

The Program will begin February 1, 2015
